

PARAGLAS SOUNDSTOP® READY-FIT PANEL

Durisol®

The Adaptable Transparent Noise Barrier

Product Details

- Transparent PARAGLAS SOUNDSTOP® Noise Barrier Sheet panels installed.
- Complete steel frame and panel assembly for an “off-the-shelf” turnkey-solution.
- Compatible with all steel and/or concrete H-posts and/or H-columns.
- Easily inserted where needed in a standard sound wall.
- Use alone or in combination with non-transparent panels.
- Will not turn yellow or become brittle due to sunlight exposure.
- Low maintenance required. Panels are self-cleaning.
- Light weight. Large panels can be used to reduce cost and enhance aesthetics.
- Excellent sound insulation properties despite its lightweight feature.
- Meets or exceeds applicable FHWA guidelines.
- Graffiti is removed quickly and easily with power-washer and approved cleaners.
- Highly cost effective.

Available in:

- Panel Heights of 4, 6, or 8 feet.
- Fits post spaces from 10 through 20 feet.
