POSITION PROFILE

POSITION/TITLE: Precast Mould Fabricator/Welder

DATE: December 18, 2020

LOCATION: Rural Hall, NC

Durisol Ltd. is the market leader in the noise barrier and retaining wall industry in North America. The company provides the design and supply of materials for noise and retaining wall systems across a variety of market sectors, including precast absorptive noise barrier systems, transparent, aluminum and pvc noise barrier systems, crash-tested and fire-rated barriers and retaining wall solutions. Our company works as a sub-contractor/material supplier for a wide range of project sizes – from large-scale DOT highway work to privately-owned residential projects. We perform all duties associated with our jobs, including sales, marketing, civil or geotechnical engineering/design, supply, and construction project management support. We are currently looking for a (title) to join our (dept) team for our (market/location).

We are currently seeking a reliable, energetic and motivated **PRECAST MOULD FABRICATOR / WELDER** to join our growing team in Rural Hall, NC.

You must be reliable, have a positive attitude, and good attendance.

You must be able to read blueprints and follow work instructions to ensure a safe work environment and achieving quality setups.

3-5 years' experience in welding is required. Fabrication in manufacturing or metal custom shops is an asset.

Responsibilities:

- Perform skilled and semi-skilled work in welding
- This position requires multiple skills daily. Cut, shape, screw, weld and fit materials to form parts for precast moulds. Materials used in fabrication is steel, wood, rubber, plastic and concrete.
- Expected to determine the best method and sequence of tasks to accomplish assigned duties efficiently and effectively.
- Records hours of work on daily time sheets.
- Ensure that set ups are being performed in accordance with blueprints, shop drawings and written instructions.
- Follow instructions and direction from Plant Manager.
- Maintain the acceptable condition of moulds as required.
- Ensure that moulds are clearly identified for Production.
- Fabricate moulds within the guidelines and tolerances as specified in blueprints and fabrication instructions.
- Construct tooling and guides for Production.
- Assist in reporting needed materials to Plant Manager in a timely matter.
- Support projects as required to generate business results and expand skill set

- Any other production duties as assigned by the Plant Manager

Competencies Required:

- Must be able to measure in Metric and imperial units.
- Must be certified to weld (GMAW) also referred to as (MIG)
- NCDOT Welder Certification
- Experience using torches (Oxygen and Acetylene)
- Experience operating various hand tools and carpentry equipment.
- Ability to use basic arithmetic.
- Read/interpret drawings, blueprints, sketches and other construction documents.
- Work in a team environment and perform individual tasks.
- Ability to rig, hoist and move materials/moulds to areas within the Plant.
- Other duties as assigned.

Durisol USA is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity or expression, pregnancy, age, national origin, disability status, genetic information, protected veteran status, or any other characteristic protected by law.
